

The Effect of Drought on Trees in SW Oklahoma

A workshop and discussion on tree drought issues with Oklahoma Forestry Services' Field Foresters

This is an educational workshop for homeowners, landowners, land managers, and natural resource professionals to provide an overview of tree and forest related drought issues seen across our state and more specifically in southwestern Oklahoma. Participants are encouraged to bring photos of their sick trees for an assessment by one of Oklahoma Forestry Services' foresters.

WHEN: Thursday March 27, 2014

TIME: 6:00 pm

**WHERE: Comanche County Fairgrounds, Prairie Building
920 SW. Sheridan Rd. Lawton, OK 73505**

Workshop topics and discussion will include:

- Current drought situation in Oklahoma
- Recent Oklahoma Mesonet Data
- Drought effects in neighborhoods and to shade trees
- Drought effects on windbreaks, the Cross Timbers and rural forests
- What can landowners/homeowners do to care for their trees?
- Insect and disease issues
- Proper watering techniques
- Opportunities or assistance available

Hosted By: Oklahoma Forestry Services and Oklahoma State University Extension

Registration Fee: There is no registration for this workshop.
