EC Area – No Activity
SE Area – No Activity

- Large Fire Activity within the Protection Area: **No Activity**
- Fire Activity with OFS Response outside the Protection Area: **No Activity**
- OFS Prescribed Fire Activity: **No Activity**

* Protection Area Statistics do not reflect local fire department's fire run information. Statistics are for the ODAFF-Forestry Services' fifteen county Fire Protection Area in eastern Oklahoma unless otherwise noted in the Discussion section of this report.

FIRE DEPARTMENT STATISTICS** from www.firereporting.ok.gov recorded on 11/03/15 thru 11/05/15

No Activity Reported

** - These statistics are from Fire Departments that have recorded their information on the Oklahoma, Forestry Services web-based Fire Reporting System. Totals do not reflect the total acres burned or total number of fires that have occurred in Oklahoma.

Statewide Discussion:

There is a possibility of elevated fire danger today in western Oklahoma following a cold front pushing storms chances with some severe potential across Oklahoma. Dryline formation will result in relative humidity values rapidly falling to near 20%, winds 15-22 mph and temperatures 73°-78° west of U.S. Hwy. 81. Locations that receive little or no precipitation ahead of or along with the frontal passage should expect elevated fire danger today as rapidly falling relative humidity will promote very dry fuels. At this time, the highest probability will lie in furthest west tier of counties.

**Remember... ONLY YOU can prevent wildfires! Enjoy Oklahoma's wildlands responsibly.
Report any suspicious wildland fire activity on the
Arson Tip Line: 1-866-662-7766 (1-866-NO ARSON).**
