Tree removal, processing Lincoln County
We cut and harvest red cedar. NOT ALL Cedar is good for harvesting. However, when possible, we trim smaller, straight trees into fence posts and we mill larger trees into board lumber. We mulch everything.

- A Bobcat with Marshal Saw for cutting.
- Chainsaws for trimming branches, etc.
- A Gyro-Trac tracked carrier with multi-chipper for mulching debris.
- A Timber King Mill for sawing lumber. Harvesting the usable Timber helps offset the costs to the land owner. Our methods also reduce the need to burn, stack or haul away. Please give me a call for a free estimate of your property. (Each property is different, so each should be individually assessed.)

Thank you for considering us!

Cedar tree cutting with a Marshall saw that cuts the trees flush to the ground that can make a 16” cut in 4 seconds. I can also cut any kind of fence with a small Bobcat. We have a large grapple bucket, a root grapple bucket, an extreme brush hog, an auger that cuts 8”-20” holes, and a large bucket with teeth.

Trevor Seiber
Oklahoma Land Clearing Solutions
822 NW 43rd St
Oklahoma City, Oklahoma 73118
(405) 620-6415

We remove trees using highly efficient forestry muthers. We simply muth, or grind, the tree on the ground level. There is virtually nothing left to burn or haul off. An area can be muthed over the small debris left from this process. We don’t just cut trees, we get rid of them. If it grows in Oklahoma, we can make it disappear!

Troy Fisher
T & A Sawmill

Self employed entity looking to clear trees in exchange for personal hunting rights. Trees can be cut down or for a fee felled or cut to the ground level.

Trevor Seiber
Oklahoma Land Clearing Solutions
822 NW 43rd St
Oklahoma City, Oklahoma 73118
(405) 620-6415

We remove trees using highly efficient forestry muthers. We simply muth, or grind, the tree on the ground level. There is virtually nothing left to burn or haul off. An area can be muthed over the small debris left from this process. We don’t just cut trees, we get rid of them. If it grows in Oklahoma, we can make it disappear!
