NOT ALL Cedar is good for harvesting. However, when possible, we trim smaller, straight trees into fence posts and we mill larger trees into board lumber. We mulch everything that is not harvestable. We use the following items: *A Bobcat with Marshal Saw for cutting. *Chainsaws for trimming branches, etc. *A Gyro-Trac tracked carrier with mulching head for mulching debris. *A Timber King Mill for sawing lumber. Harvesting the useable Timber helps offset the costs to the Land Owner. Our methods also reduce the need to burn, stack or haul away. Please give me a call for a free estimate of your property. (Each property is different, so each should be individually assessed.) Thank you for considering us!	All
