# POSITION PROFILE

## FOREST RANGER, L23B/L23A

### General

This is the career level of this job family where employees are assigned to serve as the Incident Commander in the suppression of moderately complex wildland fires, to serve a leading role while conducting fire prevention activities and for the operation and maintenance of equipment or the construction of facilities. In this role employees have responsibilities to plan an appropriate and safe strategy for suppressing wildfires, ensure the safety of personnel and volunteer fire fighters assigned to the fire and to assign work related to the resources on the fire. Other duties may include serving in a leading role on various fire prevention and facilities/equipment maintenance activities.

### **Examples of Specific Duties and Tasks:**

1. Engages in initial attack and extended attack wildland fire suppression, prescribed burning operations and activities; provides fire suppression and prescribed burning assistance to employees, partner agencies, volunteer, and other assisting fire crews.
2. Utilize basic Geographic Information System (GIS) skills and equipment to gather wildland fire and prescribed fire data, including but not limited to acres involved, fire area latitude/longitude, and/or GIS .shp files of fire perimeters.
3. Supervises or participates in the construction and maintenance of forestry division facilities and projects, such as roads, bridges, towers and buildings.
4. Operates and maintains assigned equipment including pickup trucks, fire engines, bulldozers, and other related equipment; supervises and performs preventive maintenance; performs or schedules repairs to assigned equipment after consultation with supervisor.
5. Inventories private forestry lands by measuring and recording forest data such as tree species, volume, topographical features and tree seedling mortality; assists in the development of forest management plans for landowners; distributes fire prevention and forest management information to landowners.
6. Assists landowners in the technical aspects of tree planting operations; performs follow-up inspections to determine if proper planting techniques were used and evaluate tree survival and mortality rates; gathers tree seeds from superior stock for use in planting operations.
7. Marks trees for harvesting purposes; designates boundary lines for cutting operations, timber stand improvement work, and timber sales; computes volume for use in bid requests.
8. Presents fire prevention information and education programs for schools, groups and the general public; participates in organizing and training rural fire departments.
9. Prepares and submits Forestry Division wildland fire and prescribed fire activity reports for state and national fire reporting systems; collect wildland fire information from partner agencies as needed for state and national fire reporting systems.

### Knowledge, Skills and Abilities

Required at this level include those identified in Level I plus knowledge of fire prevention practices, of the principles of fire behavior, of normal building and grounds maintenance, and of incident management techniques.

Education and Experience requirements at this level consist of completion of training and qualification as a National Wildfire Coordinating Group Type 4 Incident Commander and two years of experience in forestry or wildland fire suppression or completion of an approved, agency directed Forest Technician training program or an equivalent combination of education and experience.
